

Horizon Blue Cross Blue Shield of New Jersey

Getting X-rays or Scans With Your OMNIASM Health Plan

If your doctor decides that you need general radiology services (for example, an X-ray, mammogram, ultrasound, etc.), he or she will direct you to call eviCore healthcare's easy-to-use Scheduling Line.¹ You don't need a referral for radiology services.

Horizon Blue Cross Blue Shield of New Jersey works with eviCore healthcare for nonemergency, outpatient radiology and diagnostic imaging services.

The eviCore healthcare scheduling staff will help schedule your appointment with the in-network radiology center of your choice — including at an in-network hospital's outpatient department — and provide a confirmation number for the service.

To make an appointment, call the eviCore Scheduling Line at **1-866-969-1234**, Monday through Friday, between 7 a.m. and 7 p.m., Eastern Time.

Remember:

Services provided by doctors, hospitals and other health care professionals who are not in the Horizon Managed Care Network or the Horizon Hospital Network are not covered. You'll be responsible for the total cost of any out-of-network services you receive (except in the case of an emergency).

If you need Advanced Imaging Services (AIS) and Cardiology Imaging Procedures

Your doctor must call eviCore healthcare before you can receive any of the services listed below:

- CT/CTA scans
- Diagnostic left-heart catheterization
- Echo stress tests
- Echocardiograms
- MRIs/MRAs
- Nuclear medicine studies (including nuclear cardiology)
- PET scans

¹ eviCore healthcare (formerly CareCore) is independent from and not affiliated with Horizon BCBSNJ.
